Mail Stop Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Dear Sir:

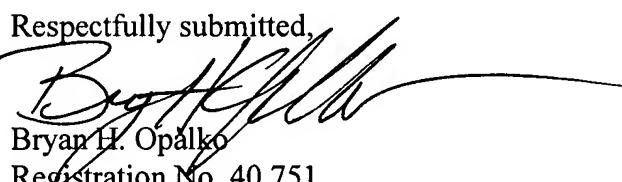

Applicants submit herewith information of which they are aware which may be material to the examination of this application and in respect of which there may be a duty to disclose in accordance with 37 C.F.R. § 1.56. While this Information Disclosure Statement may be "material" pursuant to 37 C.F.R. § 1.56, it is not intended to constitute an admission that any patent, publication, or other information referred to herein is "prior art" for the above-identified

invention unless specifically designated as such. In accordance with 37 C.F.R. §§ 1.97(g)-(h), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information exists, as defined in 37 C.F.R. § 1.56(a).

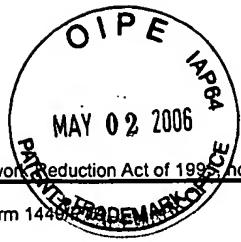

Submitted herewith is a copy of each reference, together with a Form PTO/SB/08A listing the art provided herewith. Copies of any foreign patent documents are provided. Copies of U.S. patents and publications are not required.

The listed art was recently cited in a counterpart application. The issue fee has already been paid in the present case. Under 37 C.F.R. § 1.313(b)(3), the Office may withdraw an application from issue after the issue fee has been paid if unpatentability of one or more claims is found. The present case and the counterpart case have the same Examiner. Since the Examiner has not withdrawn the present case from issue, the Examiner must have considered the claims of the present application to be allowable over the cited art. Applicants submit that the present application is indeed allowable over the cited art, as none of the cited art discloses or suggests a substrate having a locking pattern formed therein, the locking pattern comprising a plurality of pits formed in the substrate, with a plurality of nanoparticles deposited in the plurality of pits.

Respectfully submitted,

Bryan H. Opalko
